GCDS Survey science

Nice 2-4 november 2010

Meeting rationale

- The recognised need for a ground-based spectroscopic complement to Gaia (eg. Astronet roadmap; ESO-ESA WG on the Galaxy):
  - Gaia Chemo-Dynamical Survey (GCDS) concept initiated in March 2010 within GREAT
  - ESO call for Public Spectroscopic Surveys (issued 09/08/2010, deadline for LoIs 15/10/2010, invited proposals 1st of April 2011) [~up to 300n survey]
  - ESO call for a Conceptual Design of a Multi-Object Spectroscopic (MOS) instrument/facility(issued 03/09/2010, deadline for LoIs 01/10/2010, invited proposals 1st of March 2011) [~100k€ study; 6M€ instrument]
  - Other telescope-based projects (eg. CFHT/GYES, WHT/WEAVE, ...)

Time for a meeting to discuss widely the science cases put forward for the ESO PSS !
